

AISC 2022

CONFERENCE PROGRAM - JUNE 24

start	Aula BIG	Aula 2	Aula 3
9.30	KEYNOTE SPEAKER: Pietro Pietrini - The Mind, the Brain and the Law		
10.30	Coffee Break		
	Bodies & politics	Attention & Control	Body 2
11.00	N. Arikha - Cultures of emotion	G. Mirabella - Facial emotional stimuli do not influence behavioral responses automatically, but only when they are relevant to subjects' goals	J.P. Cretaz - Visual Transcendence in Bodily Immanence: A Neurophysiological Study of the Film Experience
11.30	M. Tsakiris - Feeling the body-politic	C. Mancini, L. Falciati, C. Maioli and G. Mirabella - How emotions shape inhibitory control	J. J. Sykes - Affectivity and Bodily Space
12.00	G. Russo and A. Ciaunica - Participatory time-making: the co-embodied relational basis of time experience in humans	M. Montalti, M. Calbi, C. Pederzani, E. Arcuri, M.A. Umiltà, V. Gallese and G. Mirabella - Emotional Body Postures affect inhibitory control only when are task-relevant	N. Langiulli, M. Calbi, V. Sbravatti, M. A. Umiltà and V. Gallese - Audio spatialization perception during cinematic
12.30		F. Canturi, V. Ferrari and M. Codispoti - Stimulus novelty and emotionality interact in the processing of visual distractors	T. Baggio and A. Grecucci - Can Structural Brain Features predict Alexithymia? : A Supervised Machine Learning Approach
13.00	Lunch Break		
	Reason & Affect	Cognitive Psychology and Neuroscience	Body and Art
14.30	S. Arfini and W. Ross - Feeling Stuck. Epistemic and Emotional Dimensions of Impasse	C. Boschetti, M. Marini, S. Gastaldi, E. Adessi and F. Paglieri - Comparative decision-making in capuchin monkeys (<i>Sapajus</i> spp.): exploring decoy effects on food preferences	M. Ardizzi, F. Ferroni, M.A. Umiltà and V. Gallese - The brain-body system on art: the sensorimotor roots of aesthetic experience
15.00	S. Sreckovic - Embodied Rationality of Animals	S. Pighin, G. Berenise Castro Davalos and L. Savadori - Can the 1-in-x format affect actual decisions?	P. Sarasso, I. Ronga, E. Del Fante, P. Barbieri, M. Neppi-Modona and K. Sacco - Physical but not virtual presence of others potentiates implicit and explicit learning: an EEG study
15.30	C. Boisserie-Lacroix - The metacognitive bedrocks of emotional rationality	F. Ferroni, M. Ardizzi, F. Magnani, F. Ferri, N. Langiulli, M. Tonna and V. Gallese - Tool-use extends peripersonal space boundaries in schizophrenic patients	P. Presti, D. Ruzzon, G.M. Galasso, P. Avanzini, F. Caruana and G. Vecchiato - The impact of architectural forms on the perception of emotional body postures: evidence from an adaptation aftereffect experiment in virtual reality
